

Towards 2022...

The recent performances that we witnessed from Quebec athletes on an international level during the few years have been absolutely incredible.

Erik Guay's Crystal Globe is only the beginning.

If the end of the Vancouver Games marked the beginning of the new Olympic cycle; it is with a confidence and an absolute certitude that the Quebec's grass roots are looking into the future. It is with certitude that they know it is possible to compare yourself to the best skiers in the world.

That is the heritage left by Melanie, François, Geneviève, Erik... etc

On October 28 2010, come live unforgivable moments at *La Rencontre au sommet TELUS* at the BIGGEST ski party in Canada !! The funds collected will help support the present and future champions of alpine skiing.

Come help our hopefuls by giving them the means to evolve at the same rhythm of another dream; the one to compete against the international elite on home soil.

Come live with us the beginning of a new historical era that will show that the impossible is... possible!

DATE: Thursday October 28, 2010 at 6:00 p.m.
